

**TayMac**  
CORPORATION

September 18, 2006

To Whom it May Concern:

This letter of recommendation is for Dan Bush. He has been employed by TayMac Corporation first as a graphic designer, and then as the head of the graphics department. I hired Dan Bush and evaluated his performance for formal reviews, during which he met all expectations. He contributed beyond what was asked of him by offering many useful suggestions and poignant marketing/graphical feedback. He designed a tradeshow booth display that far exceeded any previous TayMac displays. He also put together a thirty-page product line proposal for the executives at a major national retail corporation. He worked tirelessly to achieve a thoroughly cohesive presentation. Dan Bush was also responsible for many other marketing support materials for the TayMac sales team.

For the first 60 days of employment he jumped into TayMac's rigorous graphic design schedule. Due to my confidence in his abilities to do quality work, his strong work ethic, and propensity to meet deadlines in an ever-changing environment, Dan Bush was then asked to run the graphic design department. He developed and implemented a program to increase accuracy, enhance communication between the graphics department and the sales team, and streamline the graphics project review process.

Beyond that Dan Bush was a pleasure to have on staff. He was always cheerful and pleasant. Often times he commanded the room through his good humor and positive attitude. I would strongly recommend Dan Bush. He would make a great asset to any company. I would welcome a call if you wish to hear more about this fine person.

Sincerely,

Jana Johnson  
New Product Development Manager  
TayMac Corporation
